

TITLE: Environmental Policy Statement	PREPARED BY: Simon Saffin	ISSUE: 1
	DATE: 01/05/2018	PAGE: 1 of 1

It is the policy of **EURAC Poole Ltd** to ensure that all company practices, manufacturing processes and business operations with which it is involved will achieve environmental excellence through an effective Environmental Management System.

EURAC Poole Ltd shall: -

- Set goals and targets to achieve continual improvement to which everybody is committed.
- Comply with and, where possible, exceed applicable legislation and other requirements to which the organisation subscribes that relate to its environmental aspects.
- To continually strive to minimise the company's impact on the environment
- Involve all employees in the company's environmental improvement program. Provide training to personnel where necessary to enable them to carry out their responsibilities in an environmentally sound manner.
- Minimise waste, raw material and energy use through reuse, recycling and reclaim.
Ensure procedures are in place for the safe disposal of the waste product.
- The company will seek to persuade suppliers, customers and subcontractors of the importance of this issue that will lead, by example, the way to a greener environment.
- Be a good neighbour, liaise with the local community, and participate in discussions about environmental complaints and concerns.

As General Manager of EURAC Poole Ltd I would like to take this opportunity to fully endorse the Company's commitment to the environmental policy. I pledge the full support of all employees to assist in the active development of the company's environmental management system together with waste minimisation and general environmental awareness.

Steve Merritt
General Manager – EURAC Poole Ltd
